

# Take the wait out of your weighbridge

ASPsoftware's Weighbridge Module streamlines the processing of vehicles through your landfill or transfer station weighbridges.

More than just a weight capture and simple ticket printing system, it is a waste specific business management system.

## **Our 'Weighbridge' module easily handles:**

- Fast stored vehicle and auto-tare data
- Quick Pre-set Hot Keys for one touch recurring transactions
- Waste Levy ready to accommodate new taxes
- Produces productivity KPI charts ie: Veh/Hrs, Tons/Day, etc

**To view all features and benefits of our 'Weighbridge' module please go to:** [www.aspsoftware.com.au](http://www.aspsoftware.com.au)
